Note: This quotation is for a pilot who begins with zero experience and wishes to complete a Commercial Pilot License with a Multi Engine Rating and an Instrument Rating.

Flight Briefings are one on one and cost R170 per hour.
Lectures are for groups of students and cost R75 per hour

Aircraft per hour rates are as follows (excluding landings):

Sling2 Aircraft cost R1400 Dual (with Instructor)
Sling2 Aircraft cost R1300 Solo under supervision (training towards PPL)
Sling2 Aircraft cost R1200 for Hire (hour building)
Cessna 152 cost R 1600 Dual (with Instructor)
Cessna 152 cost R 1500 Solo under supervision (training towards PPL)
Cessna 152 cost R 1400 for Hire (hour building)
Piper Cherokee 150 costs R 1800 Dual (with Instructor)
Piper Cherokee 150 costs R 1700 Solo under supervision (training towards PPL)
Piper Cherokee 150 costs R 1600 for Hire (hour building)
Piper Twin Comanche costs R 4000 (Dual Only)
Simulator costs R770

Note: The Sling2 is a 700kg (not LSA) non-type certified aircraft, fully accepted by the South African Civil Aviation Authority for all flight requirements towards any license. It is also accepted by the Civil Aviation Authorities of all Western Nations including U.S.A, Canada, U.K., Australia, New Zealand, France, Germany etc. For some reason Kenya, South Korea and India do not accept it, and therefore those students are forced to fly the technologically inferior, older, less reliable, more expensive Piper Cherokee. During 2017 the Sling2 will have EASA type certification and then all students will be able to enjoy its benefits. The price lists below are for the Sling2 aircraft. If you can only accept the Piper Cherokee, you need to add R400 per hour to all aircraft flight hours except for the Simulator and Multi. Your training will therefore cost R 66 800.00 more than the total figure below.

Due to the latest requirements of the SACAA, we have had to re-introduce simulator training as well as Line Orientated Flight Training (LOFT) in our Multi Engine Program.
