Landing Fees R6 910

Excess Insurance R 3000

Examiners Fee R5 000

CPL Test 2 Hours R8 998

Licensing Fee R720

Courier Fee R260

**TOTAL R462 897**

**Note:** This price list is based on the presumption that the student is of average ability and will progress at the normal rate. Bear in mind that even those students who may struggle initially with going solo usually catch up very quickly thereafter. At Madiba it hardly ever happens that a student will exceed the minimum 200 hours required for their CPL.

Inflation is a reality and for that reason you may expect prices to increase once a year by about 5%. Traditionally the increase has come on the 1<sup>st</sup> of July in order to be fair to those who have enrolled for January based on the published prices of the previous year.

You are not obliged to buy any of our stock items. You may for example arrive with your own headset or prefer to buy a different brand than ASA. (We have selected ASA because they are durable and provide excellent value for money.)

**Aircraft per hour rates are as follows (excluding landings):**

Sling2 Aircraft cost R 1800.00 Dual (with Instructor)

Sling2 Aircraft cost R 1690.00 Solo under supervision (training towards PPL)

Sling2 Aircraft cost R 1580 for Hire (hour building)

PA28 Aircraft cost R 2050.00 Dual (with Instructor)

PA28 Aircraft cost R 1950.00 Solo under supervision (training towards PPL)

PA28 Aircraft cost R 1850 for Hire (hour building)

PA30 Multi Engine Aircraft costs R4 499 per hour

**Note:** The Sling2 is a 700kg (not LSA) non-type certified aircraft, fully accepted by the South African Civil Aviation Authority for all flight requirements towards any license. It is also accepted by the Civil Aviation Authorities of all Western Nations including U.S.A, Canada, U.K., Australia, New Zealand, France, Germany etc. For some reason Kenya, South Korea and India do not accept it, and therefore those students are forced to fly the technologically inferior, older, less reliable, more expensive Cessna 152 or Piper Cherokee. During 2018 the Sling2 will have EASA type certification and then all students will be able to enjoy its benefits. The price lists below are for the Sling2 aircraft. If you can accept only Cessna 152 or Piper Cherokee, then please request a quote for those aircraft in particular

This quote does not include living expenses and you should budget on around R7000 per month for food and accommodation. Course duration for the PPL is around 4 months and total course duration for the CPL is around 18 months.
